Waldmann Medical Phototherapy

**Waldmann**   
ENGINEERS OF LIGHT

On September 30th, 2019, in the best interests of customers, partners and suppliers, a letter of intent to take over the division of Photomedical Devices was signed between Herbert Waldmann GmbH & Co. KG and JK-Gruppe GmbH.

Following joint and intensive efforts to initiate a sale of the medical phototherapy division to the JK Group, the parties came to the conclusion that this transaction would not come to fruition.

In future, the parties remain open to potential synergies and cooperation arrangements.

Operators of Waldmann UV therapy appliances need not fear any drawbacks. Our in-house service organisation will continue to provide support and to supply spare parts. All legislative obligations will continue to be honoured.

The board of directors of Herbert Waldmann GmbH & Co. KG
